The point to take away (if you ignore Steele's friend Harding's propaganda) is that the "whistleblower", Nuland, Steele, Chalupa are all connected and work together previously on the coup in Ukraine. That same group then took out Manafort.

The final 302--dated 15 February 2017--painted General Flynn in the worst possible light. The "facts" of this 302 are not supported by the notes taken by Agents Strzok and Pientka. The conclusion is simple--the FBI fabricated a case against General Flynn.

The stupidity of taking me on is that Halper & co. know that I am a "leading expert" on espionage so I know precisely how they run their black propaganda operations. Even more stupid was taking on @GenFlynn, intelligence leader with track record of destroying bad guys.

At the time, Flynn was one of the top US spies and the director of the Defense Intelligence Agency (DIA), which provides information to the Pentagon about the military strengths and intentions of other states and terrorist groups.
